## LOOKING FOR WORK AFTER GRADUATING

Have you heard the stories in the media about the lack of graduate opportunities available? It's true that there have been decreases in some industries, but others have seen growth.

### Top tip

Do you know someone working in the field that you are interested in? You could ask them how they got their role and what the job is really like.

### Not sure which career path to follow? Confused by all the options available?

You're not alone. Many students find that it is difficult to identify what they would like to do after graduating. Luckily, there are a number of things you can do to help identify your options and reach a decision. Use an online careers tool – these can help you think about what skills and abilities you have to offer and what careers may match them. Those you can access include My Potential, Adult Directions, Prospects Planner and Windmills. We have links to these at: [www.wmin.ac.uk/page-1677](http://www.wmin.ac.uk/page-1677)

### Visit the Career Development Centre

Our Careers Consultants are available for individual appointments of up to 45 minutes, to discuss career options, overcoming barriers to achieving your career goals, setting out action plans and any other issues relating to your career. To book an appointment, telephone 020 7911 5184.
